## **WHO ARE WE?**

Bed Bug Detectives & Advisors have one primary goal: to verify the presence or absence of live bed bugs and/or viable eggs at our clients' properties. Detection and monitoring for bed bugs by our team of skilled canines and talented handlers saves our clients' days of disruption and hundreds, often thousands, of dollars by pinpointing problems in a timely fashion. We are experts independent of exterminators. Our quality control and quality assurance for training and testing our working canines are best in market with 97% accuracy tracked everyday. Our teams are certified by the National Entomology Scent Detection Canine Association.

## **WHAT DO WE DO?**

We protect peace of mind and relationships by protecting the people most important to you – family & friends, buyers, sellers, landlords, and tenants. And in doing so, we also protect property. We will **certify locations bed bug free**. Detection by our highly trained and certified canine teams, along with our detailed reporting, will help REBNY members and clients to **close deals faster** and **with total confidence**. Bed Bug Detectives & Advisors' "Clean Site Certificate" meets the needs of all parties involved in the sale or lease by providing the assurance buyers want and reports that meet NYC regulations. *Note this NYTimes article on the importance of bed bug inspections for [real estate transactions](#) and requirements set forth by the [NYC City Council](#) this year.*

## **WHAT ARE WE OFFERING REBNY MEMBERS & THEIR CLIENTS?**

**REBNY members and their clients will receive a 20% discount to save at least \$50 on timely bed bug detection and "clean site" certification. Certification helps to resolve concerns and protect the interests of all parties so that buyers & sellers and renters & landlords can confidently move ahead with final leases and sales.** REBNY members or clients may call or write to **request an appointment** here or learn more on [our website](#) today.
