

# RESIDENTIALNYC.COM

**H**unting for a home is only a click away when you check out the myriad listings of **ResidentialNYC.com**. This comprehensive, user-friendly site offers quick and easy search and requires no registration. With the recent addition to its listings of **The Corcoran Group**, the city's largest residential real estate brokerage company, **ResidentialNYC.com** now offers upwards of 10,000 properties of all types across all five boroughs. (Citi Habitats, owned by **The Corcoran Group**, also recently joined **ResidentialNYC.com** providing thousands of available rentals.)

"The timing was right for us. **ResidentialNYC.com** is a consumer-friendly site that offers easy search and requires no registration. We are pleased with how the site has developed and we are happy to partner with REBNY to provide consumers with

an expanded listing source," said Pamela Liebman, president and chief executive officer of **The Corcoran Group**.

NYC's newest player, **ResidentialNYC.com**—the free public real estate listings website of the Real Estate Board of New York (REBNY)—has already received more than 35 million hits.

"**ResidentialNYC.com** is all about convenience and no hassle providing New Yorkers easy access to the most up-to-date, accurate and reliable information available in the real estate market," says Steven Spinola, REBNY president.

**N**avigating the site is so easy that two clicks put you in touch with the real estate broker representing a given property. Visitors to the site can search Open House schedules for available properties by day, and by using keyword searches such as "pet friendly" or "doorman" they can narrow the hunt to fit every last personal need. Thanks to enhanced mapping features users can view listings at street level to get a better picture of the neighborhood or block where a property is located.

**ResidentialNYC.com** updates its listings every three hours, compared to once or twice a day by other outfits. You are able to compare up to five properties at the same time on the site and calculate mortgage costs. The site contains a wealth of information about New York's residential real estate market, neighborhoods, school districts and more, making it the only true one-stop destination for city homebuyers on the web.
